

BIBLIOGRAPHY OF WILLIAM H. PEARSON

As of December 2011

1. "Sulfur Participation Involving Four-Membered Ring Intermediates," E. L. Eliel, W. H. Pearson, L. M. Jewell, Tetrahedron Letters, **1980**, 21, 331.
2. "Azidomethyl Phenyl Sulfide: A Synthon for NH_2^+ ," B. M. Trost, W. H. Pearson, Journal of the American Chemical Society, **1981**, 103, 2483.
3. "A Synthesis of the Naphthalene Core of Streptovaricin D via a Synthon for NH_2^+ ," B. M. Trost, W. H. Pearson, Tetrahedron Letters, **1983**, 24, 269.
4. "Sulfur Activation of Azides Toward Addition of Organometallics. Amination of Aliphatic Carbanions," B. M. Trost, W. H. Pearson, Journal of the American Chemical Society, **1983**, 105, 1054.
5. "A New Strategy for the Synthesis of Spiroketal," S. J. Danishefsky, W. H. Pearson, Journal of Organic Chemistry, **1983**, 48, 3865.
6. "Diastereofacial Control in the Lewis Acid Catalyzed Cyclocondensation Reactions of Aldehydes with Activated Dienes: A Synthesis of the Mus Musculus Pheromone," S. J. Danishefsky, W. H. Pearson, D. F. Harvey, Journal of the American Chemical Society, **1984**, 106, 2455.
7. "On the Relationship of Topological and Diastereofacial Control in the Lewis Acid Catalyzed Cyclocondensation Reaction of Alkoxyaldehydes with Activated Dienes: Metal Tunable Asymmetric Induction," S. J. Danishefsky, W. H. Pearson, D. F. Harvey, Journal of the American Chemical Society, **1984**, 106, 2456.
8. "Chelation-Controlled Facially Selective Cyclocondensation Reactions of Chiral Alkoxy Aldehydes: Syntheses of a Mouse Androgen and of a Carbon-Linked Disaccharide," S. J. Danishefsky, W. H. Pearson, D. F. Harvey, C. J. Maring, J. P. Springer, Journal of the American Chemical Society, **1985**, 107, 1256.
9. "Total Synthesis of (\pm)-3-Deoxy-D-manno-2-octulopyranosate (KDO)," S. J. Danishefsky, W. H. Pearson, B. E. Segmuller, Journal of the American Chemical Society, **1985**, 107, 1280.
10. "Synthesis of Fused Pyrrolines by the Intramolecular Cycloaddition of Azides. Application to the Pyrrolizidine Alkaloids," W. H. Pearson, Tetrahedron Letters, **1985**, 26, 3527.

11. "Intramolecular 2-Azaallyl Anion Cycloadditions. Application to the Synthesis of Fused Bicyclic Pyrrolidines," W. H. Pearson, M. A. Walters, K. D. Oswell, Journal of the American Chemical Society, **1986**, 108, 2769.
12. "Spiro Asymmetric Induction. Synthesis of Optically Pure α -Hydroxyacid Derivatives by Alkylation of a Chiral Glycolate Enolate," W. H. Pearson, M.-C. Cheng, Journal of Organic Chemistry, **1986**, 51, 3746.
13. "Intramolecular Azide-Diene Cycloadditions. A One-Pot Nitrene-Diene Cycloaddition Equivalent," W. H. Pearson, J. E. Celebuski, Y.-F. Poon, B. R. Dixon, J. H. Glans, Tetrahedron Letters, **1986**, 27, 6301.
14. "Synthesis of 1,3-Dioxolan-4-ones. An Improved Procedure," W. H. Pearson, M.-C. Cheng, Journal of Organic Chemistry, **1987**, 52, 1353.
15. "Spiro Asymmetric Induction. 3. Synthesis of Optically Pure Syn or Anti α,β -Dihydroxy Esters by the Aldol Condensation of Chiral Glycolate Enolates," W. H. Pearson, M.-C. Cheng, Journal of Organic Chemistry, **1987**, 52, 3176.
16. "Transmetallation of *N*-(trialkylstannyl)methylimines. A new method for the generation and cycloaddition of 2-azaallyl anions," W. H. Pearson, D. P. Szura, W. H. Harter, Tetrahedron Letters, **1988**, 29, 761-764.
17. "The Synthesis of Pyrrolidine-Containing Natural Products via [3+2] Cycloadditions," W. H. Pearson in "Studies in Natural Products Chemistry: Volume 1, Stereoselective Synthesis (Part A), Rahman, A., Ed., Elsevier, **1988**.
18. "Stereochemical Effects in the Ozonolysis of (*E*)- and (*Z*)-1-Ethoxypropene," B. J. Wojciechowski, W. H. Pearson, R. L. Kuczkowski, Journal of Organic Chemistry, **1989**, 54, 115-121.
19. "Aldol Condensation of a Chiral Glycolate Enolate. A Synthesis of (-)-Bestatin," W. H. Pearson, J. V. Hines, Journal of Organic Chemistry, **1989**, 54, 4235-4237.
20. "Assembly of the Gephyrotoxin Ring System via a [4+1] Approach to 3-Pyrrolines," W. H. Pearson, Yam-Foo Poon, Tetrahedron Letters, **1989**, 30, 6661-6664.
21. "Nitrogen-Substituted Carbanions from Tin-Lithium Exchange Reactions: Access to Primary Amines," W. H. Pearson, A. C. Lindbeck, Journal of Organic Chemistry, **1989**, 54, 5651-5654.
22. "A Stereoselective Route to 2-Phenylthio-1,3-butadienes," W. H. Pearson, K.-C. Lin, Y.-F. Poon, Journal of Organic Chemistry, **1989**, 54, 5814-5819.

23. "The Synthesis of Triazole Analogues of Antitumor Dehydropyrrolizidine Alkaloids," W. H. Pearson, S. C. Bergmeier, J. A. Chytra, Synthesis, **1990**, 156.
24. "Synthesis of Indolizidines by the 1,3-Dipolar Cycloaddition of Azides with Methylenecyclopropanes Followed by Cyclopropylimine Rearrangement," P. C. Heidt, S. C. Bergmeier, W. H. Pearson, Tetrahedron Letters **1990**, 31, 5441-5444.
25. "Synthesis of Pyrrolizidines and Indolizidines by the Intramolecular Cycloaddition of Azides with Electron-Rich 1,3-Dienes. A Synthetic Equivalent of a Nitrene-Diene Cycloaddition," W. H. Pearson, S. C. Bergmeier, S. Degan, K.-C. Lin, Y.-F. Poon, J. M. Schkeryantz, J. P. Williams, Journal of Organic Chemistry, **1990**, 55, 5719-5738.
26. "The Intramolecular Cycloaddition of Azides with ω -Chloroalkenes. A Facile Route to (-)-Swainsonine and Other Indolizidine Alkaloids," W. H. Pearson, K.-C. Lin, Tetrahedron Letters **1990**, 31, 7571-7574.
27. "A Synthesis of (-)-Slaframine and (-)-1,8a-Diepislaframine," W. H. Pearson, S. C. Bergmeier, Journal of Organic Chemistry, **1991**, 56, 7571-7574.
28. "A Stereoselective Synthesis of 1-Substituted-2-Alkoxy-1,3-Butadienes by the Fragmentation of β -Hydroxysilanes," W. H. Pearson, J. M. Schkeryantz, Synthesis, **1991**, 342-346.
29. "A Synthesis of (+)-7-Epiaustraline and (-)-7-Epialexine," W. H. Pearson, J. V. Hines, Tetrahedron Letters, **1991**, 32, 5513-5516.
30. "Stereochemical Studies on Chiral, Non-Conjugated, Nitrogen-Substituted Carbanions Generated by Tin-Lithium Exchange," W. H. Pearson, A. C. Lindbeck, Journal of the American Chemical Society, **1991**, 113, 8546-8548.
31. "Advances in Heterocyclic Natural Product Synthesis," Pearson, W. H., Ed.; JAI Press: Greenwich, CT; **1991**, Vol. 1.
32. "Generation of 2-Azaallyl Anions by the Transmetalation of N-(Trialkylstannyl)-methylimines. Pyrrolidine Synthesis by [3 + 2] Cycloadditions with Alkenes," W. H. Pearson, D. P. Szura, M. J. Postich, Journal of the American Chemical Society, **1992**, 114, 1329-1345.
33. "Lithium Perchlorate-Assisted Substitution Reactions of Allylic Acetates and Allylic Alcohols," W. H. Pearson, J. M. Schkeryantz, Journal of Organic Chemistry **1992**, 57, 2986-2987.
34. "Synthesis of (-)-Slaframine and Related Indolizidines," W. H. Pearson, S. C. Bergmeier, J. P. Williams, Journal of Organic Chemistry, **1992**, 57, 3977-3987.

35. "An Intramolecular Schmidt Reaction of an Alkyl Azide with a Carbocation. The Generation and Rearrangement of a Conformationally Restricted Secondary Aminodiazonium Ion," W. H. Pearson, J. M. Schkeryantz, Tetrahedron Letters, **1992**, 33, 5291-5294.
36. "An Improved Method for the Preparation of Pyrrolidines by the Cycloaddition of Non-Stabilized 2-Azaallyl Anions with Alkenes," W. H. Pearson, M. J. Postich, Journal of Organic Chemistry, **1992**, 57, 6354-6357.
37. "A Synthesis of (\pm)- γ -Lycorane by the Intramolecular Cycloaddition of an Azide with an ω -Chloroalkene," W. H. Pearson, J. M. Schkeryantz, Journal of Organic Chemistry, **1992**, 57, 6783-6789.
38. "Advances in Heterocyclic Natural Product Synthesis," Pearson, W. H., Ed.; JAI Press: Greenwich, CT; **1992**, Vol. 2.
39. "Configurational Stability of Chiral, Nonconjugated Nitrogen-Substituted Organolithium Compounds Generated by Tin-Lithium Exchange of *N*-[(1-Tri-*n*-butylstannyl)alkyl]imidazolidin-2-ones and -Oxazolidin-2-ones," W. H. Pearson, A. C. Lindbeck, J. W. Kampf, Journal of the American Chemical Society, **1993**, 115, 2622-2636.
40. "Intramolecular Schmidt Reactions of Azides with Carbocations. Synthesis of Bridged-Bicyclic and Fused-Bicyclic Tertiary Amines," W. H. Pearson, R. Walavalkar, J. M. Schkeryantz, W.-k. Fang, J. D. Blickensdorf, Journal of the American Chemical Society, **1993**, 115, 10183-10194.
41. "Synthesis of Polyhydroxylated Quinolizidines: Ring Expanded Analogs of Swainsonine and Castanospermine," W. H. Pearson, E. J. Hembre, Tetrahedron Letters, **1993**, 34, 8221-8224.
42. "Generation and Cycloaddition of Heteroatom-Substituted 2-Azaallyl Anions with Alkenes and Alkynes. Synthesis of 1-Pyrrolines and Pyrroles," W. H. Pearson, E. P. Stevens, Tetrahedron Letters **1994**, 35, 2641-2644.
43. "Synthesis of *n*-[1-(Trialkylstannyl)alkyl]amides and -amines by the Displacement of Benzotriazoles with Trialkylstannylolithiums," W. H. Pearson, E. Stevens, Synthesis, **1994**, 904-906.
44. "[3+2] and [3+3] Cycloadditions of Azides with Allylic Carbocations," W. H. Pearson, W.-k. Fang, J. W. Kampf, Journal of Organic Chemistry, **1994**, 59, 2682-2684.
45. "An Approach to 6a-Epipretazettine and 6a-Epiprecriwelline via an Intramolecular 2-Azaallyl Anion Cycloaddition Reaction," W. H. Pearson, M. J. Postich, Journal of Organic Chemistry, **1994**, 59, 5662-5671.

46. "Generation of 2-Azapentadienyl Anions and Their Cycloaddition with Alkenes. Synthesis of 2-Alkenylpyrrolidines," W. H. Pearson, V. A. Jacobs, Tetrahedron Letters, **1994**, 35, 7001-7004.
47. "Synthesis of (\pm)-Tylophorine by the Intramolecular Cycloaddition of an Azide with an α -Chloroalkene," W. H. Pearson, R. Walavalkar, Tetrahedron, **1994**, 50, 12293-12304.
48. "Application of the 2-Azaallyl Anion Cycloaddition Method to Syntheses of (\pm)-Crinine and (\pm)-6-Epicrinine," W. H. Pearson, F. E. Lovering, Tetrahedron Letters, **1994**, 35, 9173-9176.
49. "Synthesis of Amines by the Intramolecular Schmidt Reaction of Aliphatic Azides with Carbocations," W. H. Pearson, W.-k. Fang, Journal of Organic Chemistry, **1995**, 60, 4960-4961.
50. "Short, Efficient Syntheses of the Amaryllidaceae Alkaloids (-)-Amabiline and (-)-Augustamine *via* Intramolecular 2-Azaallyl Anion Cycloadditions," W. H. Pearson, F. E. Lovering, Journal of the American Chemical Society, **1995**, 117, 12336-12337.
51. "Ethyl Azidoformate," W. H. Pearson, P. S. Ramamoorthy, Encyclopedia of Reagents for Organic Synthesis, L. A. Paquette, Ed., Wiley, New York, **1995**, Vol. 4, 2392-2395.
52. "4-Nitrobenzenesulfonyl Urethane," W. H. Pearson, P. S. Ramamoorthy, Encyclopedia of Reagents for Organic Synthesis, L. A. Paquette, Ed., Wiley, New York, **1995**, Vol. 6, 3721-3722.
53. "Cyclopropyldiphenylsulfonium Tetrafluoroborate," D. L. Romero, W. H. Pearson, P. S. Ramamoorthy, Encyclopedia of Reagents for Organic Synthesis, L. A. Paquette, Ed., Wiley, New York, **1995**, Vol. 2, 1462-1464.
54. "Azidomethyl Phenyl Sulfide," W. H. Pearson, P. S. Ramamoorthy, Encyclopedia of Reagents for Organic Synthesis, L. A. Paquette, Ed., Wiley, New York, **1995**, Vol. 1, 220-222.
55. "Phenyl Azide," W. H. Pearson, P. S. Ramamoorthy, Encyclopedia of Reagents for Organic Synthesis, L. A. Paquette, Ed., Wiley, New York, **1995**, Vol. 6, 3954-3957.
56. "*N*-[(Tri-*n*-butyl)stannyl]methylbenzaldimine," W. H. Pearson, P. S. Ramamoorthy, Encyclopedia of Reagents for Organic Synthesis, L. A. Paquette, Ed., Wiley, New York, **1995**, Vol. 7, 5030-5031.

57. "*t*-Butoxycarbonyl Pyrrole," W. H. Pearson, P. S. Ramamoorthy, Encyclopedia of Reagents for Organic Synthesis, L. A. Paquette, Ed., Wiley, New York, **1995**, Vol. 2, 841-842.
58. "*t*-Butyl Azidoformate," W. H. Pearson, P. S. Ramamoorthy, Encyclopedia of Reagents for Organic Synthesis, L. A. Paquette, Ed., Wiley, New York, **1995**, Vol. 2, 850-851.
59. "An Efficient Synthesis of (\pm)-Crinine Using an Intramolecular Azide-Olefin Cycloaddition," J. M. Schkeryantz, W. H. Pearson, Tetrahedron, **1996**, 52, 3107-3116.
60. "1,3-Anionic Cycloreversions of N-Lithioimidazolidines: A New Route to 2-Azaallyl Anions," W. H. Pearson, M. A. Walters, W. H. Harter, Electron. Conf. Het. Chem. **1996**, Paper #060 [<http://www.ch.ic.ac.uk/ectoc/echet96/papers/060/index.htm>].
61. "Why is it Possible to Transmetalate Cyclic Secondary Alpha-amino Stannanes but not Acyclic Ones?" R. E. Gawley, J. D. Evanseck, W. H. Pearson, E. P. Stevens, Electron. Conf. Het. Chem. **1996**, Paper #082 [<http://www.ch.ic.ac.uk/ectoc/echet96/papers/082/index.htm>].
62. "Aliphatic Azides as Lewis Bases. Application to the Synthesis of Heterocyclic Compounds," W. H. Pearson, Journal of Heterocyclic Chemistry, **1996**, 33, 1489-1496.
63. "Synthesis of Tetrahydroxyquinolizidines: Ring-Expanded Analogs of the Mannosidase Inhibitor Swainsonine," W. H. Pearson and E. J. Hembre, Journal of Organic Chemistry, **1996**, 61, 5537-5545.
64. "The Synthesis of Four Novel Glycosidase-Inhibitory Hydroxymethyl-Substituted Polyhydroxylated Indolizidines: Ring-Expanded Analogs of Alexine and Australine," W. H. Pearson, E. J. Hembre, Journal of Organic Chemistry, **1996**, 61, 5546-5556.
65. "Monocyclic Aziridines and Azirines," W. H. Pearson, B. Lian, S. C. Bergmeier, Comprehensive Heterocyclic Chemistry, 2nd Edition, A. Padwa, Ed., Pergamon Press, 1996, Vol. 1A, 1-60.
66. "A Practical Synthesis of (-)-Swainsonine," W. H. Pearson, E. J. Hembre, Journal of Organic Chemistry, **1996**, 61, 7217-7221.
67. "The Intramolecular Schmidt Reaction of Azides with Tertiary Alcohols: Synthesis of 5-(α -Naphthyl)- and 5-(β -Naphthyl)indolizidines as Potential Dopamine Analogs and Non-Opiate Antinociceptive Agents," W. H. Pearson, B. M. Gallagher, Tetrahedron, **1996**, 52, 12039-12048.

- 68 "Advances in Heterocyclic Natural Product Synthesis," Pearson, W. H., Ed.; JAI Press: Greenwich, CT; 1996, Vol. 3.
69. "Composition and Method for Treating Acute or Chronic Rhinosinusitis", J. Tulin-Silver, W. H. Pearson, U. S. Patent 5,508,282, Apr. 16, **1996**.
70. "Palladium-Catalyzed Aminations of Aryl Halides with Amines," N. S. Barta, W. H. Pearson, Chemtracts: Organic Chemistry, **1996**, 9, 88-92.
71. "Thermal Cyclization of *N*-Hydroxylamines with Alkenes: The Reverse Cope Elimination," B. M. Gallagher, W. H. Pearson, Chemtracts: Organic Chemistry, **1996**, 9, 126-130.
72. "The Construction of Nitrogen Heterocycles by *p*-Toluenesulfonamide Addition to Phenyl(alkynyl)iodonium Triflate and Subsequent Vinyl Carbene Insertion," B. M. Gallagher, W. H. Pearson, Chemtracts: Organic Chemistry, **1996**, 9, 248-252.
73. "Synthetic Studies on the Perhydropyrrolo[2,1-*j*]quinoline Marine Alkaloids Lepadiformine and Cylindricine C Using a 2-Azapentadienyl Anion Cycloaddition. Synthesis of 2,13-Diepilepadiformine (or 2-Epi-11-deoxycylindricine C)," W. H. Pearson, N. S. Barta, J. W. Kampf, Tetrahedron Letters, **1997**, 38, 3369-3372.
74. "Synthesis of the Novel Mannosidase Inhibitors (3*R*)- and (3*S*)-3-(Hydroxymethyl)swainsonine," E. J. Hembre, W. H. Pearson, Tetrahedron, **1997**, 53, 11021-11032.
75. "Reactions of Azides with Electrophiles: New Methods for the Generation of Cationic 2-Azabutadienes. Synthesis of 1,2,3,4-Tetrahydroquinolines and 1,2-Dihydroquinolines *via* a Hetero Diels-Alder Reaction," W. H. Pearson, W.-k. Fang, Israel J. Chem., **1997**, 37, 39-46.
76. "The Generation and Cycloaddition of 2-Azaallyl Anions and Azomethine Ylides from a Common Precursor. A Novel Synthesis of Indolizidines and Other Heterocycles," W. H. Pearson and Y. Mi, Tetrahedron Letters, **1997**, 38, 5441-5444.
77. "Solid-Phase Synthesis of Pyrrolidines *Via* 2-Azaallyl Anion Cycloadditions with Alkenes," W. H. Pearson, R. B. Clark, Tetrahedron Letters, **1997**, 38, 7669-7672.
78. "Heretical Thoughts II: On Lessons We Learned from Our Graduate Advisor That Have Impacted Our Undergraduate Teaching," B. P. Coppola, W. H. Pearson, Journal of College Science Teaching, **1998**, 27, 416-421.

79. "Assembly of 3a-Arylperhydroindoles by the Intramolecular Cycloaddition of 2-Azaallyl Anions with Alkenes. Total Syntheses of (\pm)-Crinine, (\pm)-6-Epicrinine, (-)-Amabiline and (-)-Augustamine," W. H. Pearson, F. E. Lovering, Journal of Organic Chemistry, **1998**, *63*, 3607-3617.
80. "Application of the 2-Azaallyl Anion Cycloaddition Method to an Enantioselective Total Synthesis of (+)-Cocconine," W. H. Pearson, B. W. Lian, Angewandte Chemie, International Edition, **1998**, *37*, 1724-1726.
81. "Aliphatic Azides in the Schmidt Reaction: A Formal Synthesis of Gephyrotoxin," W. H. Pearson, W.-k. Fang, Keynote Paper in Electron. Conf. Het. Chem. **1998**, [<http://www.ch.ic.ac.uk/ectoc/echet98/pub/013/index.htm>].
82. "The Cycloaddition of Heteroatom-Substituted 2-Azaallyl Anions with Alkenes. Synthesis of 1-Pyrrolines and Bridged Azabicyclic Compounds," W. H. Pearson, E. P. Stevens, Journal of Organic Chemistry, **1998**, *63*, 9812-9827.
83. "Total Synthesis of (\pm)-Quinolizidine 217A," W. H. Pearson, H. Suga, Journal of Organic Chemistry, **1998**, *63*, 9910-9918.
84. "Synthetic Studies on Lepadiformine Using the 2-Azaallyl Anion Method," W. H. Pearson, Y. Ren, Journal of Organic Chemistry, **1999**, *64*, 688-689.
85. "Formation and Cycloaddition of Nonstabilized *N*-Unsubstituted Azomethine Ylides from (2-Azaallyl)stannanes and (2-Azaallyl)silanes," W. H. Pearson, R. B. Clark, Tetrahedron Letters, **1999**, *40*, 4467-4471.
86. "Nonstabilized *N*-Unsubstituted Azomethine Ylides: A Synthesis of Indolizidine 239CD," R. B. Clark, W. H. Pearson, Organic Letters **1999**, *1*, 349-351.
87. "Method for Preparing Swainsonine", W. H. Pearson, E. J. Hembre, U. S. Patent 5,919,952, July 6, 1999.
88. "Total Syntheses of (+)-Australine and (-)-7-Epialexine," W. H. Pearson, J. V. Hines, Journal of Organic Chemistry, **2000**, *65*, 5785-5793.
89. "Synthesis of Benzo-Fused 1-Azabicyclo[m.n.0]alkanes via the Schmidt Reaction: A Formal Synthesis of Gephyrotoxin," W. H. Pearson, W.-k. Fang, Journal of Organic Chemistry, **2000**, *65*, 7158-7174.
90. "Azidomercurations of Alkenes: Mercury-Promoted Schmidt Reactions," W. H. Pearson, D. A. Hutta, W.-k. Fang, Journal of Organic Chemistry, **2000**, *65*, 8326-8332.
91. "Double Allylation Reactions of (2-Azaallyl)stannanes: Synthesis of *N,N*-Bis(3-butenyl)amines and Their Conversion to 2,3,6,7-Tetrahydroazepines via Ring-

- Closing Metathesis," W. H. Pearson and Aaron Aponick, Organic Letters, **2001**, *3*, 1327-1330.
92. "A Schmidt Route to 1-Azabicyclo[x.y.0]alkanes: A Comparison of Carbocation Stabilizing Groups," W. H. Pearson and R. Walavalkar, Tetrahedron, **2001**, *50*, 12293-12304.
93. "Total Synthesis of the Kopsia Lapidilecta Alkaloid (\pm)-Lapidilectine B," W. H. Pearson, Y. Mi, I. Y. Lee, and P. Stoy, Journal of the American Chemical Society, **2001**, *123*, 6724-6725.
94. "Swainsonine Derivatives and Methods for Preparing the Same", W. H. Pearson, E. J. Hembre, U. S. Patent 6,262,065, July 17, 2001.
95. "Studies on the Asymmetric Cycloaddition of 2-Azaallyl Anions with Alkenes", W. H. Pearson, E. P. Stevens, and A. Aponick, Tetrahedron Letters, **2001**, *42*, 7361-7365.
96. "Synthesis and mannosidase inhibitory activity of 3-benzyloxymethyl analogs of swainsonine", W. H. Pearson and L. Guo, Tetrahedron Letters, **2001**, *42*, 8267-8271.
97. "Synthesis and mannosidase inhibitory activity of 6- and 7-substituted analogs of swainsonine", W. H. Pearson and E. J. Hembre, Tetrahedron Letters, **2001**, *42*, 8273-8276.
98. "Preparation of immobilized swainsonine analogs on solid support", W. H. Pearson, L. Guo, T. M. Jewell, Tetrahedron Letters, **2002**, *43*, 2175-2178.
99. "Synthetic Applications of Dipolar Cycloaddition Chemistry Toward Heterocycles and Natural Products," A. Padwa and W. H. Pearson, John Wiley & Sons, New York, 2002.
100. "Alkaloid Synthesis via [3+2] Cycloadditions," W. H. Pearson, Pure and Applied Chemistry, **2002**, *74*, 1339-1347.
101. "A Synthesis of (1*S*,2*R*,8*R*,8*aR*)-8-Hydroxy-1,2-(isopropylidenedioxy)indolizidin-5-one from D-Ribose: Improved Access to (-)-Swainsonine and its Analogs," W. H. Pearson, Y. Ren, J. D. Powers, Heterocycles, **2002**, *58*, 421-430.
102. "Generation and Cycloaddition of Semi-stabilized 2-Azaallyllithiums via Electrocyclic Ring-Opening or Cycloreversion Reactions," W. H. Pearson, M. A. Walters, M. K. Rosen, W. G. Harter, Arkivoc, **2002**, Part viii, 91-111 (<http://www.arkat-usa.org/ark/journal/2002/Padwa/AP-502H/AP-502H.pdf>).

103. "Cycloadditions of non-stabilized 2-azaallyllithiums with cycloheptatriene", W. H. Pearson, D. M. Mans, and J. W. Kampf, Organic Letters, **2002**, *4*, 3099-3102.
104. "6-and 7-substituted analogs of swainsonine their preparation and therapeutic use," W. H. Pearson, E. J. Hembre, Y. Ren, and T. M. Barber, US Patent 6,630,484, October 7, **2003**.
105. "Cycloadditions of nonstabilized 2-azaallyllithiums (2-azaallyl anions) and azomethine ylides with alkenes: [3 + 2] approaches to pyrrolidines and application to alkaloid total synthesis," W. H. Pearson and P. Stoy, SYNLETT, **2003**, 903-921.
106. "Cycloadditions of 2-azaallyllithium species with conjugated polyenes," W. H. Pearson, D. M. Mans, and J. W. Kampf, J. Organic Chem. **2004**, *69*, 1235-1247.
107. "A three-component, one-pot synthesis of indolizidines and related heterocycles via the [3+2] cycloaddition of non-stabilized azomethine ylides," W. H. Pearson, P. Stoy, and Y. Mi, J. Organic Chem., **2004**, *69*, 1919-1939.
108. "Pyrrolo-dC and Pyrrolo-C: Fluorescent analogs of cytidine and 2'-deoxycytidine for the study of oligonucleotides," D. A. Berry, K.-Y. Jung, D. S. Wise, A. D. Sercel, W. H. Pearson, H. Mackie, J. B. Randolph, and R. L. Somers, Tetrahedron Letters, **2004**, *45*, 2457-2461.
109. "Azomethine ylides from tin-substituted cyclic carbinol amides: A new route to highly substituted pyrrolizidines," W. H. Pearson, A. Dietz, and P. Stoy, Organic Letters, **2004**, *6*, 1005-1008.
110. "The synthesis of 9,10-dihydro(methaiminomethano)anthracene and *N*-protected derivatives via double reductive amination," P. Stoy, J. Rush, and W. H. Pearson, Synthetic Communications, **2004**, *34*, 3481-3489.
111. "A novel Kumada coupling reaction to access cyclic (2-azaallyl)stannanes. Cycloadditions of cyclic nonstabilized 2-azaallyllithium species derived from the cyclic (2-azaallyl)stannanes," D. M. Mans and W. H. Pearson, Journal of Organic Chemistry, **2004**, *69*, 6419-6426.
112. "Total synthesis of the Kopsia lapidilecta alkaloid (\pm)-lapidilectine B," W. H. Pearson, I. Y. Lee, Y. Mi, P. Stoy, Journal of Organic Chemistry, **2004**, *69*, 9109-9122.
113. "Total synthesis of (+)-cocaine via desymmetrization of a meso-dialdehyde," D. M. Mans, W. H. Pearson, Organic Letters, **2004**, *6*, 3305-3308.

114. "Fluorous affinity purification of oligonucleotides," W. H. Pearson, D. A. Berry, P. Stoy, K.-Y. Jung, A. D. Sercel, Journal of Organic Chemistry, **2005**, *70*, 7114-7122.
115. "A practical synthesis of kifunensine analogues as inhibitors of endoplasmic reticulum α -mannosidase I," K. W. Hering, K. Karaveg, K. W. Moremen, W. H. Pearson, Journal of Organic Chemistry, **2005**, *70*, 9892-9904.
116. "The Design and Synthesis of YC-1 Analogues as Probes for Soluble Guanylate Cyclase," K. W. Hering, J. D. Artz, W. H. Pearson, M. A. Marletta, Bioorganic and Medicinal Chemistry Letters, **2006**, *16*, 618-621.
117. "Formal Synthesis of Aspidosperma Alkaloids via the Intramolecular [3 + 2] Cycloaddition of 2-Azapentadienyllithiums," W. H. Pearson, A. Aponick, Organic Letters **2006**, *8*, 1661-1664.
118. "Synthesis of *N,N*-Bis(3-butenyl)amines from 2-Azaallyl Dication Synthetic Equivalents and Conversion to 2,3,6,7-Tetrahydroazepines by Ring-Closing Metathesis", W. H. Pearson, A. Aponick, A. L. Dietz, Journal of Organic Chemistry, **2006**, *71*, 3533-3539.
119. "Fluorous oligonucleotide reagents and affinity purification of fluorinated oligonucleotides," D. A. Berry, W. H. Pearson, PCT Int. Appl. **2006**, WO 2006081035 A2 20060803.
120. "Approach to the homoerythrina alkaloids using a tandem N-alkylation/azomethine ylide cycloaddition", W. H. Pearson, J. E. Kropf, A. L. Choy, I. Y. Lee, J. W. Kampf, Journal of Organic Chemistry, **2007**, *72*, 4135-4148.
121. "2-(3-Pyrrolin-1-yl)-1,4-naphthoquinones: photoactivated alkylating agents," A. Aponick, A. L. Dietz, W. H. Pearson, European Journal of Organic Chemistry **2008**, 4264-4276.
122. "Fluorous oligonucleotide reagents and affinity purification of oligonucleotides," D. A. Berry, W. H. Pearson, US Patent Appl. **2010**/0087634 A1.
123. "Colorimetric-oxycarbonyl protecting groups for use in organic syntheses," J. C. Hodges, Y. F. Poon, W. H. Pearson, US Patent 7,960,526, issued June 14, **2011**.
124. "Dark quenchers, probes and other conjugates incorporating the same, and their use," D. A. Berry, W. H. Pearson, US Patent 7,879,986, issued February 1, **2011**.
125. "Colorimetric-oxycarbonyl protecting groups for use in organic syntheses," J. C. Hodges, Y. F. Poon, W. H. Pearson, US Patent 7,960,526, issued June 14, **2011**.
